APPENDIX I.

PHYSICAL CONDITIONS.

1. To be passed as fit for appointment to a commission in the Territorial Army a candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with the efficient performance of military duty.
2. The correlation of age, height, and chest-girth will not be less than that given in the following table :—

PHYSICAL EQUIVALENTS.

Age last birthday.	Height without shoes.	Chest.		Age last birthday.	Height without shoes.	Chest.	
		Girth when fully expanded.	Range of expansion not less than—			Girth when fully expanded.	Range of expansion not less than—

	72 and upwards	36	2		70 „ 72	36	2
					72 and upwards	36½	2

3. The candidate's height will be measured as follows :—He will be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or outer sides of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks and shoulders touching the standard ; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters.
4. The candidate's chest will be measured as follows :—He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted.

The minimum and maximum will then be recorded thus in inches $\frac{33}{35}, \frac{34}{36\frac{1}{2}}$ &c.

In recording the measurements, fractions of less than half-an-inch should not be noted.
5. The candidate will also be weighed, and his weight recorded in pounds. Fractions of a pound should not be noted.
6. The examination for determining the acuteness of vision includes two tests : one for distant, the other for near vision. The Army Test Types will be used for the test for distant vision, without glasses at a distance of 20 feet, and for the test for near vision without glasses, at any distance selected by the candidate. The standards of the minimum acuteness of vision with which a candidate will be considered fit are as follows :—

STANDARD I.	
<i>Right Eye.</i>	<i>Left Eye.</i>
Distant Vision.—V=6/6.	V=6/6 .
Near Vision.—Reads 0, 6.	Reads 0, 6.
STANDARD II.	
<i>Better Eye.</i>	<i>Worse Eye.</i>
Distant Vision.—V= 6/6.	V, without glasses = not below 6/60 ; and after correction with glasses = not below 6/24.
Near Vision.—Reads 0, 6.	Reads 1.
STANDARD III.	
<i>Better Eye.</i>	<i>Worse Eye.</i>
Distant Vision.—V, without glasses = not below 6/60, and after correction with glasses = not below 6/6.	V, without glasses = not below 6/60 ; and after correction with glasses = not below 6/12.
Near Vision.—Reads 0, 8.	Reads 1.
Each eye must have a full field of vision as tested by hand movements.	

Squint or any morbid condition of the eyes or of the lids of either eye liable to the risk of aggravation or recurrence, will cause the rejection of the candidate.

Each eye will be examined separately and the lids must be kept wide open during the test.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

The degree of acuteness of vision of all candidates for commissions will be entered in the following manner :

V.R.=..... ; with glasses = ; Reads.....

V.L.=..... ; with glasses = ; Reads.....

No relaxation of the standard of vision will be allowed.

7. The following additional points will then be observed :—

- (a) That his hearing is good and there is no sign of ear disease.
- (b) That his speech is without impediment.
- (c) That his teeth are in good order. He must have 10 sound teeth in the upper jaw *functionally opposed* to 10 sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well-filled teeth will be considered as sound.
- (d) That his chest is well formed and that his lungs and heart are sound.
- (e) That he is not ruptured.
- (f) That he does not suffer from a severe degree of varicocele* or varicose veins. A candidate who has been successfully operated on will be accepted.
- (g) That his limbs are well formed and developed.
- (h) That there is free and perfect motion of all the joints.
- (i) That his feet and toes are well formed.
- (k) That he does not suffer from any inveterate skin disease.
- (l) That he has no congenital malformation or defect.
- (m) That he does not bear traces of previous acute or chronic disease pointing to an impaired constitution.

8. If the candidate, in the opinion of the Medical Officer, does not appear to be of pure European descent a statement to this effect will be entered in the report.

* Severe varicocele is defined as follows :—

- (1) Where the mass of veins is so great that it hangs down in front of the testicle when the candidate stands up.
- (2) If the cord is elongated to such an extent that the testicle hangs at a level obviously lower than normal, of course allowing for the fact that the left testicle is usually at a lower level than the right.
- (3) If there is atrophy to such an extent that the affected testicle is estimated at less than half the bulk of the gland on the sound side.
- (4) Undescended testicle should only be considered a disqualification when situated within the inguinal canal, or at the external ring.
